Remarks

Here is the high quality, custom log home that most have only dreamed of, nestled on natural 3+ acres site. The first impression from the street takes you back to quaint, simpler times but once inside, it totally lives in the modern world with gleaming newer appliances and up-to-date conveniences throughout. The kitchen, dining and great room are one welcoming open space, featuring 2-story-high ceiling and impressive woodburning stone fireplace. The knotty pine stairway leads to a 22 by 13 ft loft adding perfect extra living space and a skylight high above under the soaring wood-clad ceilings. There are 2 good sized bedrooms and baths, one on the main level and the other upstairs. Enjoy the spacious wood decking just outside, offering even more areas for fun. There are 2 detached buildings for storage, a workshop...or maybe even a conversion to a hobby spot. While the grounds near the house are like a big happy yard, much of the 3+ acres is natural-growth Florida foliage creating a live buffer of privacy on 3 sides of the property.
