Remarks

Tucked away on more than three acres of natural Florida landscape, this custom-built log home delivers the charm of a rustic retreat with the comfort of modern living. From the moment you arrive, the warm cabin aesthetic sets a welcoming tone, while inside, contemporary updates and gleaming newer appliances make everyday life effortless. The open kitchen, dining, and great room flow together beneath soaring two-story ceilings, anchored by an impressive stone wood-burning fireplace. A beautiful knotty-pine staircase leads to a spacious 2213 loft, illuminated by a skylight and framed by rich wood-clad ceilings. The home offers two generously sized bedrooms and baths, one conveniently located on the main level and the other upstairs. Step outside to expansive wood decking that extends your living space and creates the perfect backdrop for relaxing or entertaining. Two detached buildings provide excellent flexibility for storage, workshop space, or hobby use. While the area immediately surrounding the home feels like a large, cheerful yard, the remainder of the acreage is filled with native Florida foliage, creating a natural privacy huffer on three sides.
